## **DETAILED ACTION**

### *Claim Objections*

1. Claims 14 and 16 are objected to because of the following informalities:

Claim 14 recites the limitation "the curve" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claim 16 recites the limitation "said adjustable posts of claim 9" in lines 1 and 2. There is insufficient antecedent basis for this limitation in the claim.

Appropriate correction is required.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Loveless 4,976,489.

Regarding claim 1, Loveless '489 discloses a device comprising a protective plate (38) and means (56) for mounting the plate to the underside of an automotive chin spoiler.

4. Claims 2, 4 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Sakai et al. 4,902,067.

Regarding claim 2, Sakai et al. '067 discloses a device comprised on a flat horizontal plate (2) with at least one raised, vertical post (52) placed on one end of said plate.

Regarding claim 4, Sakai et al. '067 discloses the device that contains two vertical posts on opposite end of said plate with the horizontal length between the posts being fixed and made a predetermined distance apart approximately equal to the length between the outer exterior surface edge and the interior surface edge of an automobile chin spoiler.

Regarding claim 11, Sakai et al. '067 discloses the device composed of a flat, horizontal plate with at least one raised, vertical post placed on opposite end of said plate and the horizontal length between said post being adjustable.

***Allowable Subject Matter***

5. Claims 3 and 12-23 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The cited references show several other devices for protecting an automotive chin spoiler similar to that of the current invention.
